DWLI'S HELP FOR PARENTS:
Animals

1. Colour every puff of smoke which has the name of an animal in it. (Words not to be circled: pen = head; car = car; ffôn = phone; drws = door).
2. Underline the words which don't belong in every line. Think where the animal lives, or look at the first letter of the word. Answer: teigr = tiger, the rest are pets; llew = lion, the rest are all farm animals; cwningen = rabbit, the rest are all from Africa; pysgodyn = fish, the rest all begin with c.
3. Where does each animal live? Draw a line between the animal and the word describing where it lives. (Answer: mochyn (pig) = twlc (sty); mwnci (monkey) = jyngl (jungle); ceffyl (horse) = stabl (stable); cath (cat) = basged (basket); buwch (cow) = beudy (cowshed); bochdew (hamster) = caets (cage); pysgoden (fish) = powlen (bowl); dafad (sheep) = cae (field).

* Colour in the **Anifeiliaid** star at the back of the book.
